RE: West Cancer Center - Germantown - CN1808-038
West Surgery Center - Germantown- CN1809-040

Dear Ms. Hill:

The West Clinic, P.C. has filed CON applications for the initiation of PET/CT and linear accelerator services (CN1808-0380) and the establishment of an ASTC (CN1809-040) at the location described in their CON application. Methodist Healthcare supports both of these applications. They are needed by the West Cancer Center for its patient population and will contribute to the orderly development of health care by ensuring that West will continue to be able to provide its patients with necessary health care services.

We urge you to approve both of these applications. If you have any questions or need additional information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "Michael Ugwueke". The signature is written in a cursive, flowing style.

Michael Ugwueke, CEO
